COLORADO'S

Annual Highway Report

FOR 1956

*(Including reports of Receipts and Disbursements by the Colorado Department of Highways,
the counties and cities of the state pursuant to Chapter 120, Colorado Revised Statutes, 1953)*

COLORADO'S *Annual Highway Report* **FOR 1956**

The Colorado Department of Highways offers grateful acknowledgment to the State Auditor, the State Treasurer, the Department of Revenue, and the many other State, County, and City Departments whose cooperation and assistance have made this report possible.

(Including reports of Receipts and Disbursements by the Colorado Department of Highways, the counties and cities of the state pursuant to Chapter 120, Colorado Revised Statutes, 1953)

STATE HIGHWAY DEPARTMENT SECTION

COLORADO DEPARTMENT OF HIGHWAYS

Governor—Stephen L. R. McNichols

State Highway Commission:

J. J. Marsh —District 1

Frank Ghent —District 2

A. C. Sinclair —District 3, Chairman

Harald R. Husted —District 4

Robert W. Hendee—District 5, Vice Chairman

H. L. Bash —District 6

Ben H. Jorgensen —District 7

A. W. Denny —District 8

Chief Engineer—Mark U. Watrous

Prepared by the
PLANNING AND RESEARCH DIVISION

(Original Illustrations by Mapping and Special Studies Section)

FOREWORD

Colorado law requires the Department of Highways to compile and issue this annual report. The document provides information on the receipts and expenditures for highway purposes by the State and its several counties, cities and incorporated places.

The original report was prepared and distributed in 1954 and, because of favorable acceptance by the public of the graphic type of publication on all previous issues, this year's report will follow very closely the original format.

In composing the report, it has been the goal of the staff to write and assemble in a manner which will permit anyone receiving the report to quickly obtain an over-all picture of highway expenditures and progress in the State for the last annual period. In addition, the appendix data has been assembled to provide the essentials for highway administrative officials and interested highway user groups.

The law requires that the report be sent to the Governor, to the members of the legislature and to the elected officials of the counties, cities and towns. The report will also be made available to press and radio services and, so far as the published number will permit, to any interested citizen.

The Department of Highways which is responsible for making this factual information available to the citizens of the State, hopes that the report will fulfill not only the statutory requirement, but that it will also serve to increase general understanding of the complex field of highway administration.

THE DEPARTMENT OF HIGHWAYS AND ITS ORGANIZATION

The Department of Highways is a part of the executive branch of the State government, headed by the Governor. It has its own policy-making body which is the State Highway Commission. This Commission acts as a board of directors with full policy-making power. The best-known function of the Commission is the preparation each year of a budget which guides the work of the Department of Highways through the ensuing fiscal period.

The budget is recommended to the Governor by the Commission for his action and he has, under the law, the power to veto any item in the budget for any reason he deems to be appropriate.

In addition to this all-important function of budgeting, the Commission must approve all administrative policies and engineering standards used by the Department and must review on a quarterly basis the con-

struction progress, the fiscal position and all property transfers and sales. The Commission decides which highways shall be recommended for free-way status and decides which highways shall be a part of the State Highway System.

Under the policies established by the Commission, the Chief Engineer administers the affairs of the Department and is its chief administrative officer. The complex engineering and administrative groups who man the Department of Highways all work under the direction of the Chief Engineer. He alone is responsible for the direction of the work of the employees in accordance with the prevailing law.

Immediately below is a listing of the members of the State Highway Commission, the districts they represent and the counties comprising the districts:

Expiration Date of Term	Name	Address	District	Counties
Feb. 1, 1960	J. J. Marsh	850 Bannock Street, Denver, Colorado	1	The City and County of Denver
Feb. 1, 1960	Frank Ghent	c/o Ghent Motors, Ft. Collins, Colorado	2	Adams, Arapahoe, Boulder, Jefferson, Larimer, Weld
Feb. 1, 1959	A. C. Sinclair	P. O. Box 515, Limon, Colorado	3	Cheyenne, Kit Carson, Lincoln, Logan, Morgan, Phillips, Sedgwick, Washington, Yuma
Feb. 1, 1959	Harold R. Husted	P. O. Box 512, Lamar, Colorado	4	Baca, Bent, Crowley, Kiowa, Las Animas, Otero, Prowers
Feb. 1, 1958	Robert W. Hendee	26 Elm Ave., Broadmoor, Colorado Springs, Colorado	5	Custer, Douglas, Elbert, El Paso, Fremont, Huerfano, Park, Pueblo, Teller, Lake, Chaffee
Feb. 1, 1958	H. L. Bash	c/o Bash Buick, Steamboat Springs, Colorado	6	Rio Blanco, Grand, Moffat, Routt, Gilpin, Clear Creek, Jackson
Feb. 1, 1961	Ben H. Jorgensen	Gunnison, Colorado	7	Eagle, Garfield, Summit, Pitkin, Delta, Gunnison, Mesa, Montrose, Ouray
Feb. 1, 1961	A. W. Denny	Cortez, Colorado	8	Alamosa, Archuleta, Conejos, Costilla, Dolores, Hinsdale, LaPlata, Mineral, Montezuma, Rio Grande, Saguache, San Juan, San Miguel

THE STATE HIGHWAY SYSTEM

The Federal Aid Highway Systems and the State System of Highways are intimately tied together by the laws of the State. Chapter 120, of the Colorado Revised Statutes, 1953, describes the State Highway System in the following words: "The State Highway System shall consist of the Federal Aid Primary roads, the Federal Aid Secondary roads, plus an amount not to exceed five percent of the mileage of such systems which

may be declared to be State highways by the State Highway Commission while not being any part of any Federal System." The actual mileage of highways classed according to their type of surface which existed on the various components of the State Highway System at the end of 1956, is shown in the following tabulation:

MILEAGE TABLE FOR STATE HIGHWAY SYSTEM BY TYPE OF SURFACE

System	Projected	Graded and Drained	Gravel	Asphaltic	Port. Cement Concrete	Totals
Federal Aid Primary:						
Regular.....	11	...	21	3260	301	3593
Interstate.....	251	...		350	75	676
Federal Aid Secondary.....	..	83	1193	2548	26	3850
State (No Federal Status).....		1	125	51	6	183
Totals.....	262	84	1339	6209	408	8302

Many inquiries are received which indicate that there is a general belief that the US route markers along a highway are an indication of its Federal Aid status. Actually, nothing could be further from the truth. The US shield, with its number, is placed on a highway by the State only after approval by the American Association of State Highway Officials. This is a technical association of state highway officials which studies any request for a US numbered route and determines whether the proposed route is of a type which would entitle it to the numbered status. The real purpose of the route numbering systems is to identify highways which, by reason of their general excellence, are the best routes of travel between distant points. They are a major aid to transtate and trans-continental traffic.

From the tabulation shown in this section, it is noted that the Federal Aid Primary System is made up of regular routes and Interstate routes. The regular Federal Aid routes cover a major portion of the important trunk highways in the State. The Interstate portions have been identified

in the 1956 Federal Aid Act as "a national system of Interstate and defense highways".

The map which is used as an illustration in this section of the report identifies, by legend, those State highways which are part of the various named Federal Highway Systems and, in addition, the State highways which have no Federal status.

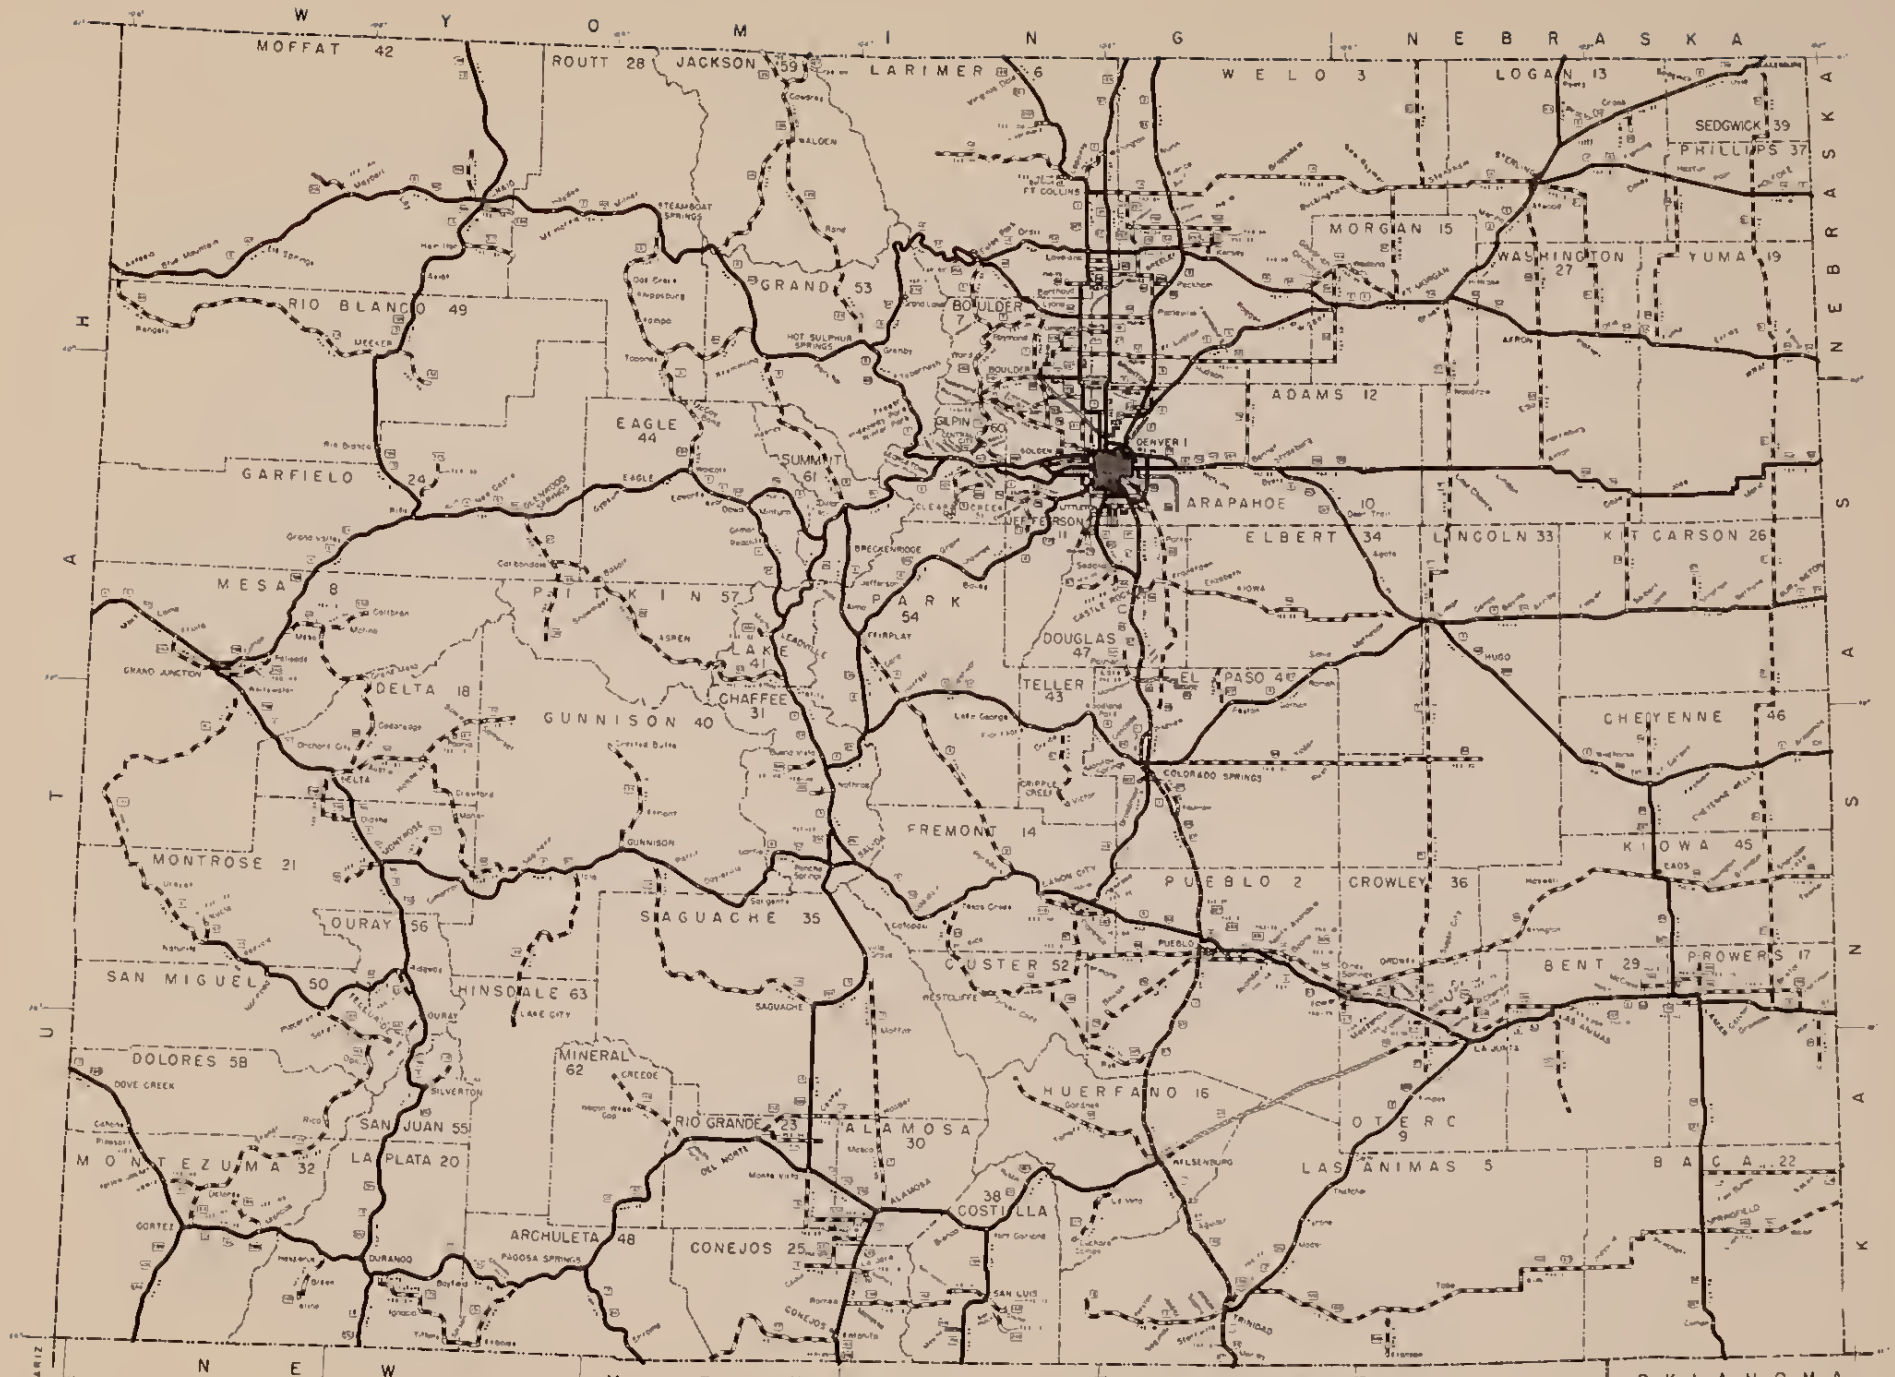

The 1956 Federal Aid Act places tremendous importance on the complete construction of the Interstate System in the next 12 years. This system includes 41,000 miles of the most important highways in the nation. The engineering standards for it have been established and it is to be built in a manner which will make it capable of handling the traffic volumes that are estimated to exist in the year 1975. The standards are uniform for the entire United States and have been accepted officially by all of the states and by the Secretary of Commerce on behalf of the Federal government.

In regard to the financing of Federal highways, it should be stated that the Congress makes separate appropriations for the Federal Aid Interstate System, the Federal Aid Primary System, the urban sections and the Federal Aid Secondary System. To only a limited extent can the funds which have been appropriated to one be transferred to the other. Generally speaking, in Colorado, the cost of constructing the Federal Aid Interstate System will be borne 90% from Federal appropriation and 10% from State source revenues. On the other systems, the Federal share approximates 55% and the State share 45%.

Under no conditions can Federal Aid funds be used for anything except the construction of highways. The maintenance of Federal Aid highways is excluded from participation in Federal grants in aid. After

construction, the cost of maintenance of the highway is borne 100% by the State.

The Federal Aid Secondary System was devised by the Congress to bring farm, mine and other natural resource products to the main Federal Aid System or to marketing and distribution centers. In all states, it is required that the County Commissioners of a county in which a proposed Federal Aid Secondary road lies, must concur with the State regarding its necessity before it may be submitted to the Federal government for approval. The Colorado law is unique in requiring that the Boards of County Commissioners must concur with the State Highway Commission before a Federal Aid Secondary Highway can be abandoned.

THE DEPARTMENT'S FINANCIAL CONDITION

The records of the Department of Highways are kept on business machines in conformity with the best modern practice. Fiscal statements are prepared each month so that the management of the Department has always before it a current statement of its financial condition.

In addition to the fiscal statement, cost records are maintained for all of the for-flung activities of the Department.

At the end of the calendar year and each fiscal year, a consolidated financial statement is prepared which can then be used to compare the current position with any previous period. On the facing page will be found the financial statement for the calendar year ending December 31, 1956. Attention is directed to the item of an Equipment Depreciation Reserve which is shown in the disbursement section as a credit. It is a Department practice to charge each operating division for the use of each piece of equipment which is assigned to it. The charge per day is based on a normal depreciation charge for the item of equipment. The operating budget of the division is charged each month for all pieces of equipment which are being used by that unit of the Department of Highways. The amounts collected from these charges are put in

an Equipment Depreciation Reserve Fund which is used to replace worn-out equipment and to purchase any necessary new equipment. For the stated reason, the fiscal budget of the Department does not include an appropriation for the purchase of equipment, but the cost records always indicate the amounts which have been expended for that purpose.

In a manner similar to that used to charge operating divisions for their equipment, charges are made for office rental which is on a monthly basis and is held in a reserve fund to liquidate the bond charges on the Department building. For this reason, the amounts accumulated in reserve funds for these purposes are shown as credits under the general heading of Disbursements.

The Revolving Fund shown in the balance section of the report is a statutory amount provided by law to be used under the direction and authority of the Chief Engineer to make immediate cash payments to temporary labor or in other instances where an immediate expenditure of cash would be advantageous to the work of the Department. All expenditures from this fund are, like other expenditures of the Department, subject to review by the State Auditor and the State Controller.

COLORADO DEPARTMENT OF HIGHWAYS
FINANCIAL STATEMENT—TWELVE MONTHS ENDING DECEMBER 31, 1956

BALANCES—December 31, 1955:

State Treasurer	\$ 4,328,550.19	
Revolving Fund	25,000.00	
Total Balances		\$ 4,353,550.19

RECEIPTS:

U. S. Government	\$13,261,442.48	
Highway User Taxes	25,702,876.18	
Anticipation Warrants	8,000,000.00	
Miscellaneous:		
Motor Vehicle Fines	\$ 529,649.36	
Tourist Camp Licenses	35,050.50	
Internal Improvement Fund	140,385.06	
County Funds	623,827.54	
Refunds and Miscellaneous	315,809.12	
Recovery of Toll Road Operating Expense	143,407.16	
Total Miscellaneous		\$ 1,788,128.74
Total Receipts		\$48,752,447.40
Total Balances and Receipts		\$53,105,997.59

DISBURSEMENTS:

Construction:		
Federal Aid Projects	\$28,487,921.74	
State Projects	7,950,154.62	
Anticipation Warrant Projects	3,278,807.04	
Total Construction		\$39,716,883.40
Maintenance		7,998,916.36
Administration		562,753.20
Amortization of Anticipation Warrants		757,556.60
Miscellaneous:		
Engineering	\$ 705,895.69	
Planning and Research	328,745.14	
Traffic Operations	121,694.79	
Laboratory	114,138.25	
Public Relations	73,682.90	
Highway Planning Committee	18.00	
Denver-Boulder Turnpike	174,565.47	
Property and Equipment	682,299.32	
Compensation Insurance	62,372.50	
State Employees Retirement Fund	308,019.00	
Total Miscellaneous		\$ 2,571,431.06
Gross Total Disbursements		\$51,607,540.62
Less Equipment Depreciation Reserve (Credit)		—881,088.60
Less Building Authority Payments (Credit)		—14,833.00
Net Disbursements		\$50,711,619.02

BALANCES—December 31, 1956:

State Treasurer	\$ 2,369,378.57	
Revolving Fund	25,000.00	
Total Balances		\$ 2,394,378.57
Total Balances and Expenditures		53,105,997.59

THE DEPARTMENT'S INCOME

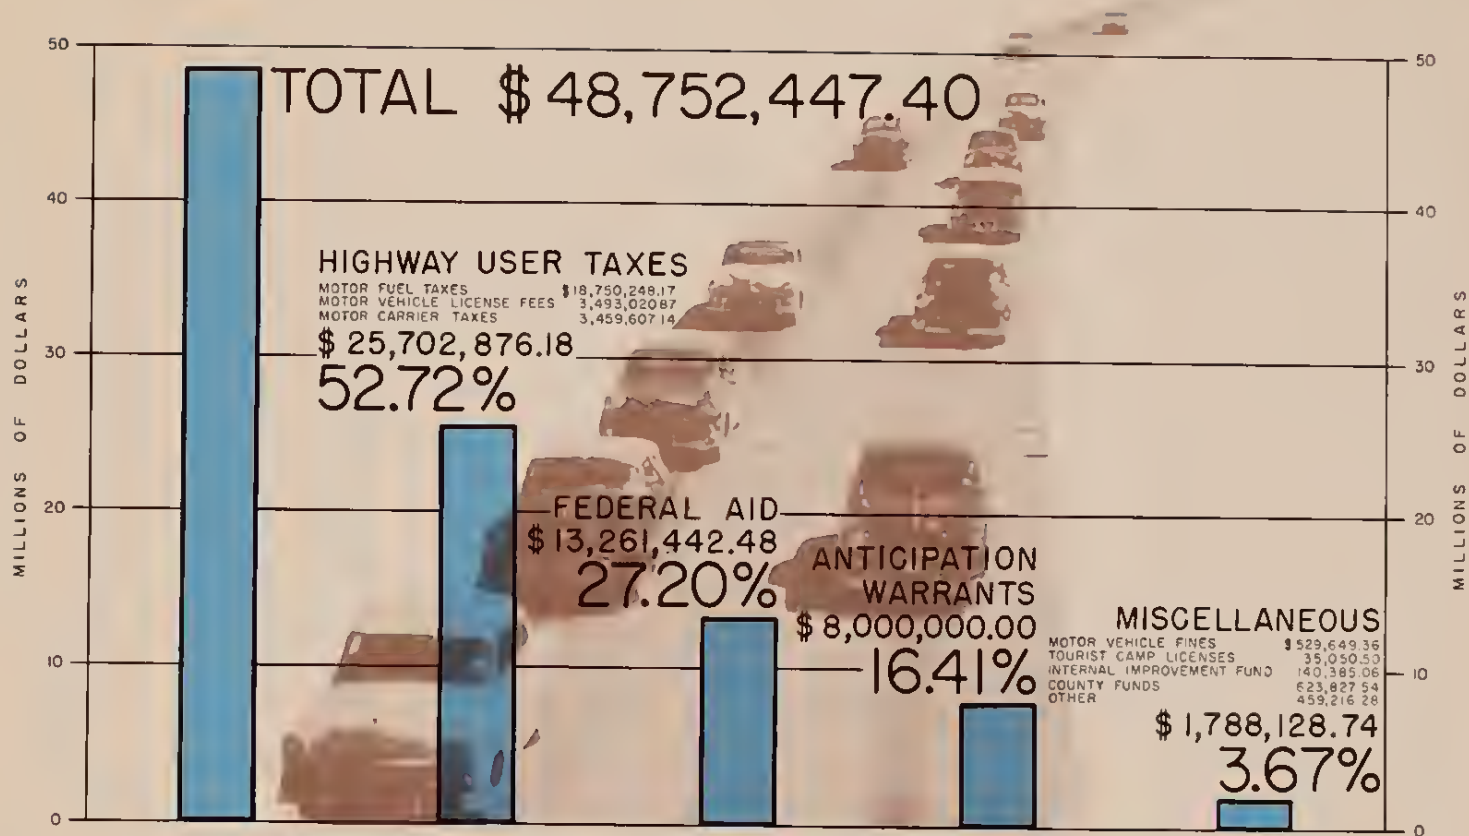

The income of the Department in the calendar year 1956, amounted to \$48,752,447.40. Any business or private enterprise with an income of that size is big indeed. In private enterprise, a previous year's income, plus that of the other prior years, is used to project the potential income for the succeeding period. In the operation of the Department of Highways, the figures are used for the same purpose. They become the basis for determining the size of highway programs of the future and the amounts of money that will be available for construction and maintenance activity. In order to use them to anticipate the future, it is necessary to know the sources from which the income becomes available.

On the facing page is an illustration which indicates the various places from which the Department of Highways receives its income. During 1956, 27.2% was returned to the State in the form of Federal Aid. It is pointed out that Federal Aid monies paid into the Federal Treasury in the form of gas tax and other taxes levied against road users are sent back to the states to pay for the Federal Aid program. Not all the monies paid in by users are returned because a substantial amount is consumed in the other general functions of the Federal government.

All highway user taxes in Colorado levied by the State must be used for road purposes. The Department of Highways received 52.72% of all of its income from the portion of the Highway User Tax Fund assigned to it by the State. The miscellaneous receipts of 3.67% came from Motor Vehicle fines and other small accounts.

Also shown as income is \$8,000,000 realized from the sale of anticipation warrants issued during the year and which represented 16.41% of all receipts. This series of warrants were issued under the law voted by the people in the general election of 1954. They bear an overage interest rate of 2.286% and will be retired over a fifteen-year period.

INCOME

THE DEPARTMENT'S DISBURSEMENTS

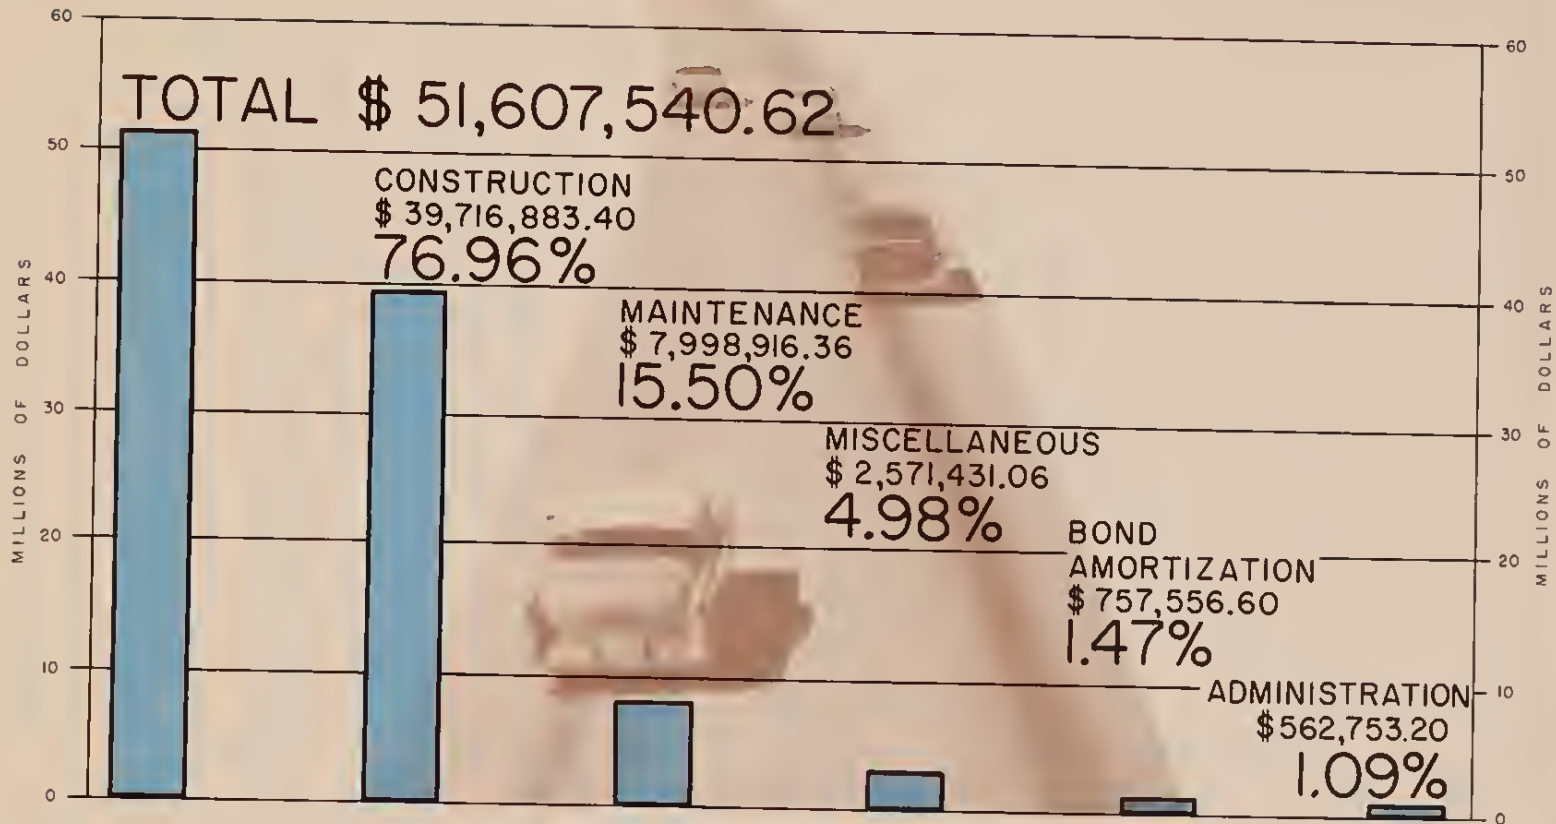

In the same manner that prior income can be used as a means of predicting income for the future, disbursements of the past become valuable in establishing programs of improvement and maintenance for the future. In the calendar year 1956, 76.96% of all disbursements was accounted for in the construction program; 15.5% was used in the maintenance of the highway system; 4.98% went to miscellaneous expenditures such as payments to the building authority in the form of rental for the highway headquarters, for the payment of insurance premiums, for preliminary engineering, traffic operations studies, public relations and payments to the State Employees Retirement Fund. The detail of all of the miscellaneous expenditures is readily determined in the financial statement shown in a previous section.

The administrative cost of the Department was 1.09% of the total expenditure. Under the statutes of the State, a 5% expenditure is permissible for administration but this amount has not been found to be necessary because of the favorable ratio of administrative cost which has resulted from the high dollar volume.

In this statement of disbursement, as well as the statement of income, the effects of the \$35 million anticipation warrant issue approved by the voters in 1954, first become apparent. The sale of the first \$8 million of these obligations took place in early 1956. The interest amount, as well as the holding fund requirements to pay off the issue, amounted to 1.47% of the disbursements during this period.

The exact amounts of money associated with the broad coverage of disbursement purposes are shown in the accompanying illustration.

DISBURSEMENTS

THE CONSTRUCTION PROGRAM—1956

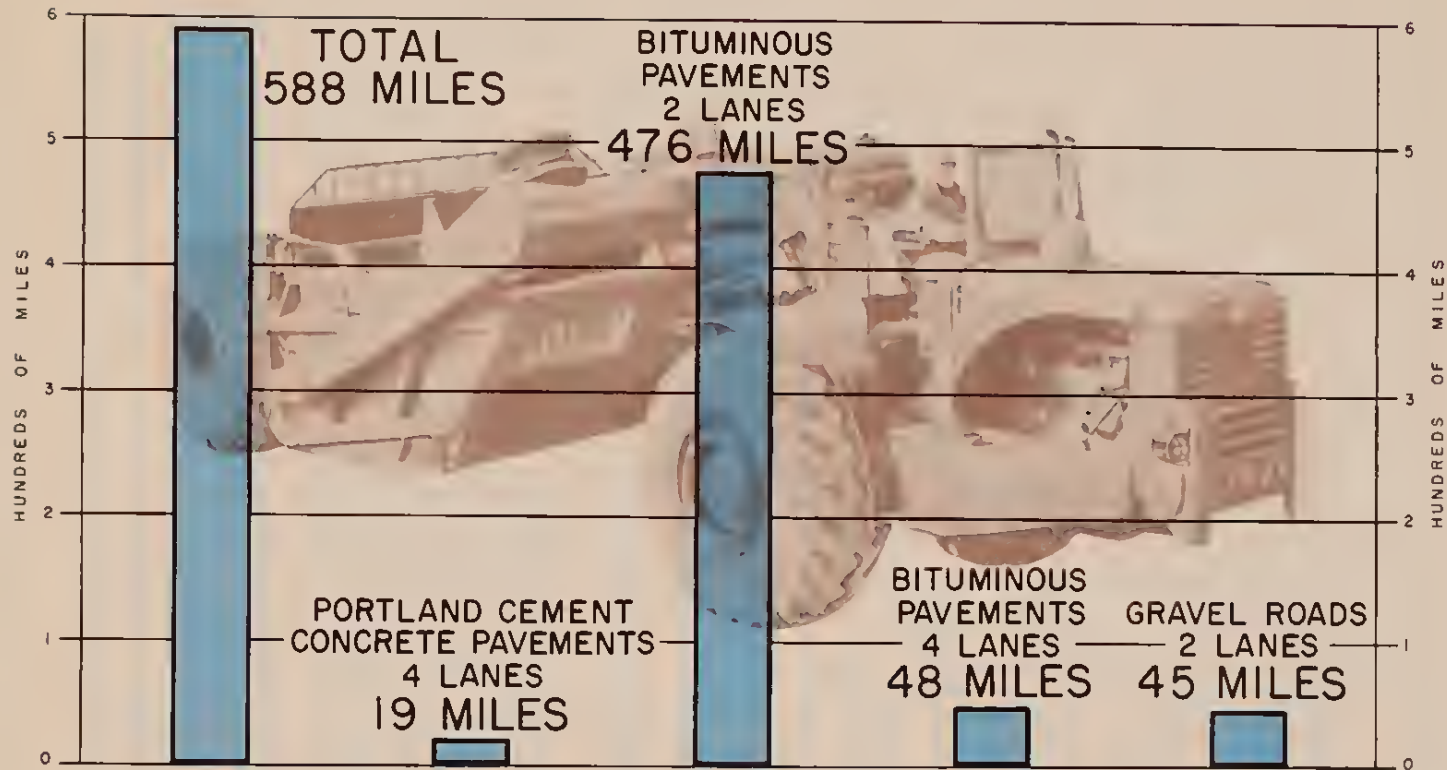

As discussed under Disbursements, a large sum of money was spent for construction in 1956. It is difficult even for people closely associated with the highway program to visualize the things that are accomplished by the expenditure of such large sums of money. In the table shown immediately below is the accomplishment in miles of road that were built through the expenditure of the stated amount of money. Briefly stated, the mileage of 2-lane highways constructed during the year

approximates half the distance from Denver to the Pacific Coast. The mileage of 4-lane roads completed during the period would, in a similar manner, approximate the distance from Denver to Colorado Springs. The accompanying illustration shows the graphic presentation of these facts, plus the footage of bridges which were built coincidental to the construction of the highways.

TABLE SHOWING MILES OF HIGHWAYS FINISHED IN 1956 BY SURFACE TYPE

System	Surface Types						
	Gravel 2-Lane	Asphaltic		Port. Cem. Conc.		Totals	
		2-Lane	4-Lane	2-Lane	4-Lane	2-Lane	4-Lane
Federal Aid—Primary:							
Regular.....	..	130	16	..	4	130	20
Interstate.....	..	22	31	..	15	22	46
Federal Aid—Secondary.....	45	315	1	360	1
State (No Federal Status).....	..	9	9	..
Totals.....	45	476	48	..	19	521	67

CONSTRUCTION

THE MAINTENANCE PROGRAM—1956

In 1956, the State Highway System was composed of 8,140 miles of highways. Under the law, the State Department of Highways is responsible for the maintenance of each mile of its system, regardless of whether it is located in a rural area or within the incorporated limits of a city or town. The law permits the Department of Highways to contract maintenance to the other public agencies in the State if, by such contract, the public interest is served.

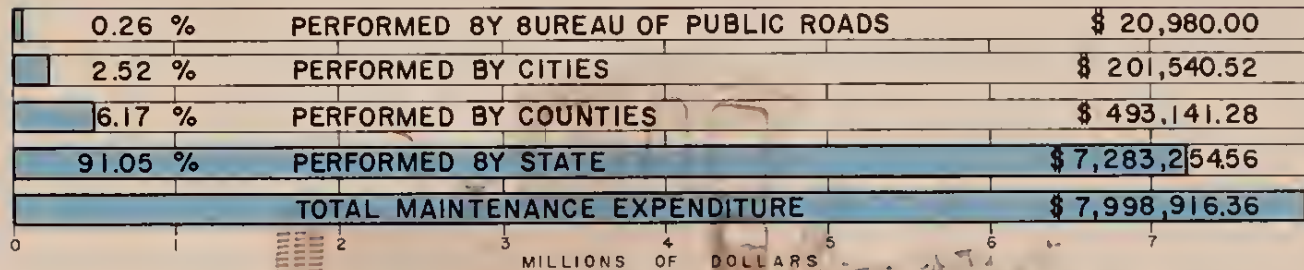

During 1956, 91.05% of all maintenance work on State highways was performed by the State with its own forces. 6.17% was contracted to counties in the form of maintenance on Federal Aid Secondary highways and State highways without Federal status. 2.52% was performed for the State by cities and a minor amount was performed for the State by the Bureau of Public Roads on forest highways that were situated on the State Highway System.

Taking the total work performed by State forces and using the cost records of the Administrative Division of the Department, it is possible to determine the amounts of money that are spent for the various kinds of maintenance work performed. On the facing page illustration, for example, is indicated the fact that better than 36% of the total expenditure was consumed in maintaining road surfaces and proper drainage. About 28% was used up in operation and supervision of equipment. Of interest to all is the fact that approximately 11% of the maintenance expenditure is used to remove snow and ice and to sand highways during storm periods. The placement of traffic signs and the now indispensable highway stripes accounted for an expenditure in excess of 8% of the total.

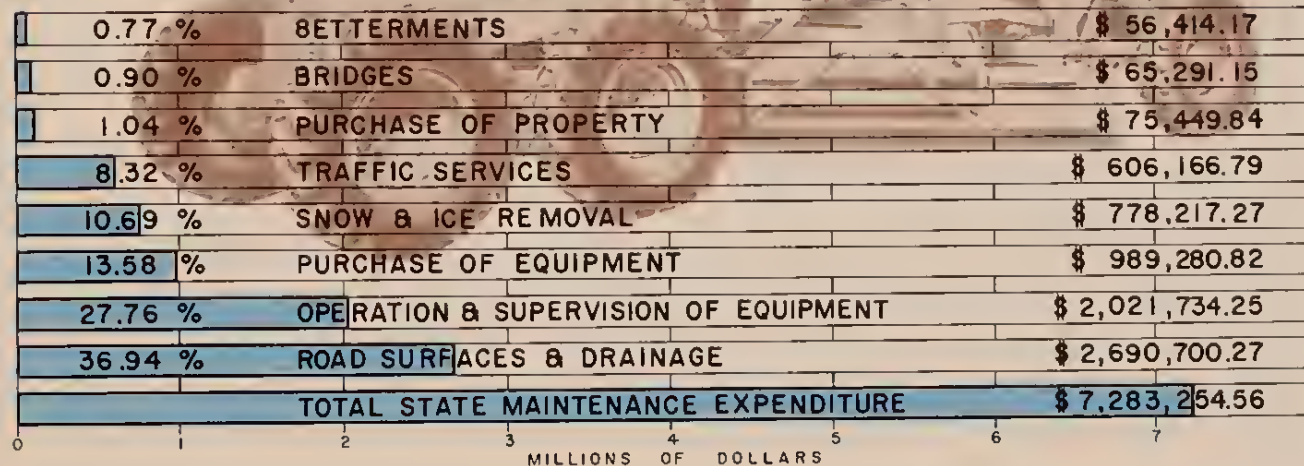

The total maintenance expenditure of \$7,998,916.36 divided by the 8,140 miles of State highways indicates that the maintenance expenditures in 1956 resulted in an annual cost of maintenance of \$982.67 per mile. This figure converts to \$2.69 per mile per day.

MAINTENANCE

EXPENDITURE BY PERFORMING AGENCY

STATE EXPENDITURE BY OPERATION ITEMS

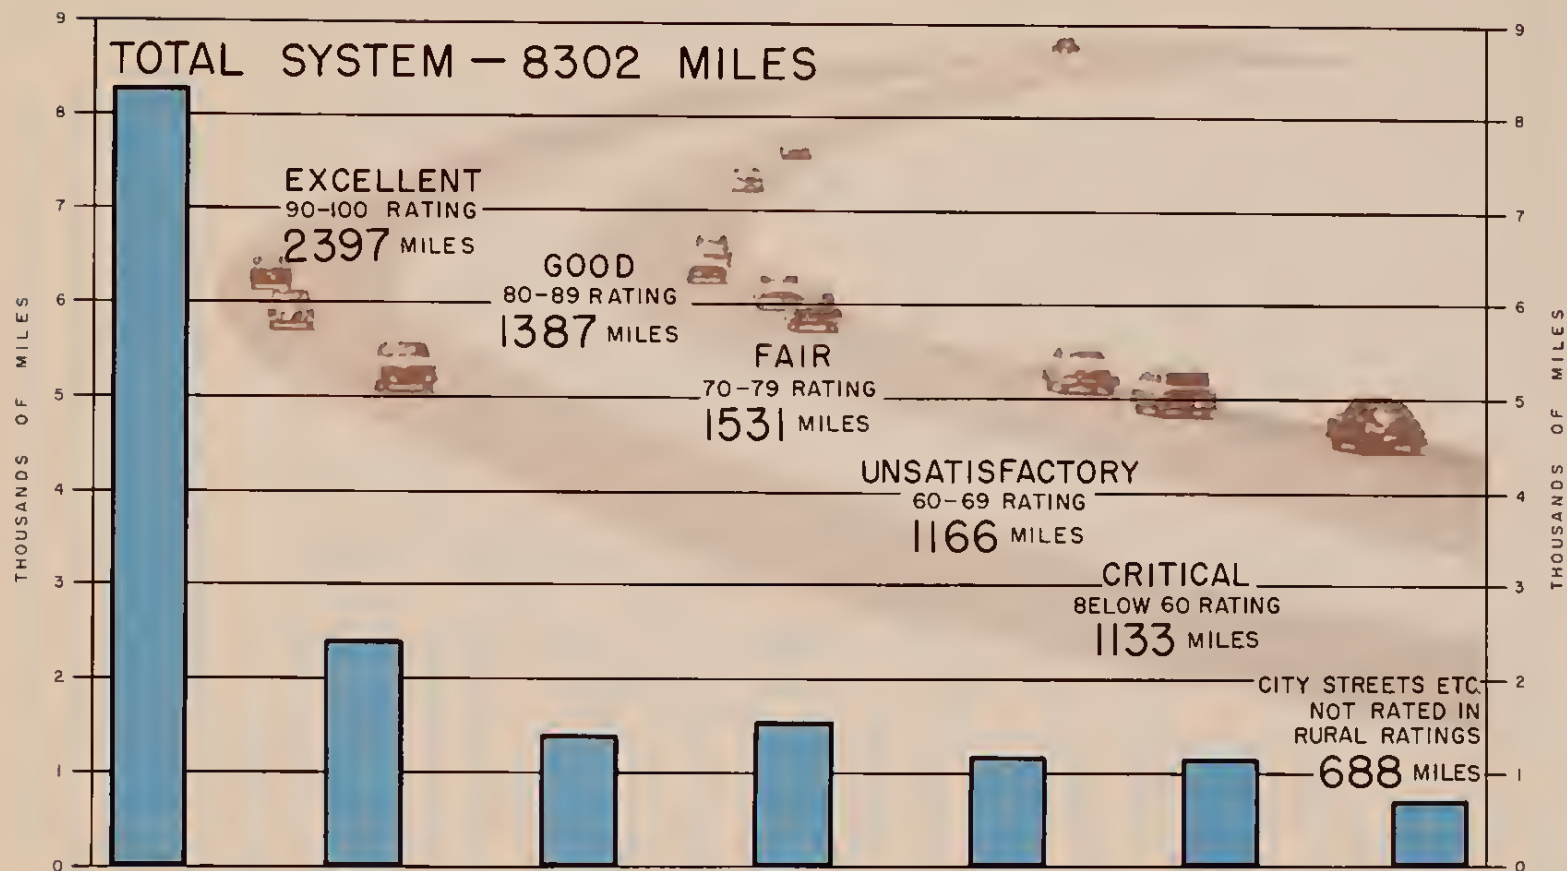

THE CONDITION OF THE STATE HIGHWAY SYSTEM

The condition of the physical plant of any industry changes from year to year. The older parts of the plant have to be replaced or they become excessively expensive to maintain. As a means of determining the physical condition of the State Highway System to perform the job of handling traffic, an annual sufficiency rating is conducted. This sufficiency rating takes into consideration all of the physical measurements of the highway in the way of width, the types of curvature, the size of the shoulders and the structural condition of the pavement and its foundation and drainage. Also considered in the rating process is the capacity of the highway to handle the volume of traffic which is using it. After all these things have been considered, numerical ratings are obtained which are an index of just how good or bad the highway is at the present time. These indexes and all of the data in back of them become the tools to determine which highways should be given priority in the construction program.

In 1956, 2,397 miles were rated as excellent. The balance of the system was rated anywhere from good to critical. The illustration accompanying this text gives the detailed mileages in the various rating categories.

No ratings are made at present on the city sections of the State Highway System. The Department is currently working on devising a method which will give ratings of comparison for these segments. At the date of the writing of this report, the research has not progressed far enough to determine an appropriate rating method. As quickly as one is devised, it will be put into use.

SUFFICIENCY RATING

THE DENVER-BOULDER TURNPIKE

The use received by the Denver-Boulder Turnpike has made it a financial success from the time it was opened on January 21, 1952. Of the total revenue bonds sold to finance its construction, \$720,000.00 have been retired on September 1, 1957. This rate of retirement has been permitted because the use given the road has been slightly in excess of the original estimates made prior to construction.

During the period January 21, 1952 through August 31, 1957, a total of 11,331,532 passenger cars, and 287,898 trucks had paid a net of \$2,580,330.65 for the use of this limited access highway. At the beginning of the fiscal period September 1, 1957, there was available in cash and in securities \$923,635.61, for use either in the repayment of bonds, or interest, or for the operating necessities of the Turnpike.

COLORADO'S COUNTY ROAD SYSTEMS

COLORADO'S COUNTY ROAD SYSTEMS

Chapter 120, of the Colorado Revised Statutes, 1953, enumerates the reports which are required to be made by the counties each year for the information of the State Legislature. These reports are also used by the State Treasurer in the determination of revenues which are to be forwarded to the counties for use on County Highway Systems. The same law requires the Department of Highways to report its income and disbursement in a manner similar to that required of the counties, but in

greater detail. Under the law, it also becomes the obligation of the State Department of Highways to compile all the county reports and to distribute the compilations to a designated group of State, County and City officials.

In prior years this report tabulated the major reports required under the law and it proved to be so universally acceptable that it is here repeated.

Type of Report	State Department Designated to Receive	Annual Due Date	Period Covered
Expenditures and Receipts	State Auditor	May 1	Previous calendar year
County Road Budgets	State Tax Commission	September 1	Next annual period
Road System Changes	Department of Highways	May 1	Previous calendar year

In 1956, the third reports of county road system receipts and expenditures were received in the State Treasurer's Office. It was only necessary to give minor assistance in obtaining the reports in the required condition. In a minor number of cases, it was necessary to recontact a county to obtain the reports within the required dateline or to secure an interpretation of the submitted figures. Immediately following is the tabulation prepared from the individual reports from expenditures and revenues submitted to the State Auditor by the several counties of the State. No attempt has been made to reconcile or interpret the reports, but footnotes at the end of the table indicate the peculiarities that exist in any figures which need explanation. In the appendix of this report is a table which

shows the mileages reported by counties as constituting the county road systems and other roads open to public travel. The mileage figures have been consolidated with registration data from the Motor Vehicle Department and percentages for distribution used by the State Treasurer in distributing the Highway User Tax Fund.

Maps and records substantiating mileages shown in the table referred to are on file in the Planning and Research Division of the Department of Highways and, as a public record, are open to examination by any citizen. Data regarding registrations is available at the Department of Revenue.

FOOTNOTES—COUNTY FISCAL REPORT, 1956

- | | |
|---|--|
| 1. Accounts payable. | 14. Payment for service rendered. |
| 2. Transfer to school fund. | 15. Sale of timber. |
| 3. Balance changed from previous year ending balance. | 16. Other expenditures unidentified \$28,492.79, and warrant cancelled Cr.—\$20.83. |
| 4. Transfers to other funds. | 17. Paid to State Department of Highways \$34,867.63, new building \$3,439.14, insurance \$2,835.56, and supplies, etc., \$8,307.75. |
| 5. Other expenditures unidentified. | 18. Outstanding warrants unpaid Cr.—\$68,415.45, and other unidentified \$5,200.46. |
| 6. Outstanding warrants unpaid. | 19. Miscellaneous sales. |
| 7. Specific ownership tax unidentified. | 20. Refund. |
| 8. Accounts payable \$20,121.26, and outstanding warrants paid \$12,680.80. | 21. Outstanding warrants unpaid Cr.—\$35,122.30, and refund \$9.60. |
| 9. Accounts receivable. | 22. Insurance etc., \$29,478.82, rebates \$270.02, transfer to towns \$1,723.45. |
| 10. Outstanding warrants paid. | 23. Transfer to general fund. |
| 11. Warrant cancelled Cr.—\$174.00, and taxes refunded \$4.12. | |
| 12. Receipts from other sources unidentified. | |
| 13. For disaster relief. | |

COLORADO'S MUNICIPAL ROAD AND STREET SYSTEMS

COLORADO'S MUNICIPAL ROAD AND STREET SYSTEMS

Chapter 120, of the Colorado Revised Statutes, 1953, covers a practical parallel for incorporated places of the requirements which accrue to the counties of the State. It appears that it was the legislative intent to require reports which would provide a uniformity of administration. In the manner provided for county reports, the State Department of Highways is required to compile the data obtained from municipalities and to distribute the consolidated information to the Legislature and other designated State and City officials.

Immediately following is a tabulation of the information obtained from the records of the State Auditor. The tabulation is augmented with footnotes explaining unique features of the reports of a number of the incorporated places. No attempt is made in the rendering of this report to interpret the information provided the Auditor by the reporting units, but the information is stated purely as a factual report of transaction.

In the appendix, there will be found the tabulation of mileages and registration data which result in the composite presentation used to distribute State user tax revenues to the various incorporated places.

The maps of the individual incorporated places which have been used in preparing this document are available for examination in the Planning and Research Division of the Department of Highways. In like manner, fiscal reports are retained in the files of the State Auditor and data on registration is available in the Motor Vehicle Division of the Department of Revenue.

FOOTNOTES—CITY FISCAL REPORT, 1956

- * Some amounts for other than street purposes are included.
1. Specific ownership tax.
 2. Balance changed from previous year's ending balance.
 3. Received from county for oiling.
 4. Donations \$225.00, gravel and oiling \$84.30, cash sale \$147.00.
 5. Includes \$25,389.77 special assessments.
 6. Other receipts unidentified.
 7. Expended for other than street purposes.
 8. Includes \$10,161.91 transfer from other funds.
 9. Includes \$11,211.62 for shop building.
 10. Transferred from other funds.
 11. Outstanding warrants unpaid.
 12. Includes \$37,455.22 special assessments.
 13. Includes \$986.14 from general fund.
 14. Paid to county for work done.
 15. For damage to sign.
 16. Accounts payable.
 17. \$1,250.00 transfer from other funds, \$30.00 donations, \$10.00 machine hire.
 18. Includes \$9,000.00 transfer, \$1,050.34 franchise tax.
 19. Land for shop building.
 20. From franchise tax.
 21. Expenditures unidentified.
 22. Includes \$2,830,608.00 from street and traffic control bond fund, and \$1,869,000.00 from special assessment districts funds.
 23. Includes \$1,371.02 transfer from other funds.
 24. Includes \$640.49 franchise tax.
 25. Includes \$251,041.68 from paving bonds.
 26. Paid to State Department of Highways.
 27. For off street parking.
 28. Paid on loan for streets.
 29. Includes \$58,000.00 bond issue.
 30. Bond redemption and interest payment.
 31. Includes \$637.40 from other funds.
 32. Includes \$43,300.00 from light fund.
 33. For parking lot.
 34. Includes \$16,271.08 paving petitions, \$16,005.25 bridge construction, \$218.25 miscellaneous.
 35. Includes \$137,000.00 improvement district bonds, \$12,000.00 transfer from general fund.
 36. Includes \$130,090.25 improvement district expenditure.
 37. Apportionments are retained by Department of Highways for work done.
 38. Includes \$8,000.00 transfer from other funds.
 39. Includes \$14,150.00 transfer from electric department, \$3,012.76 for oiling.
 40. Includes \$1,484.27 street improvement bond, \$1,320.61 transfer, \$742.14 judgment bond.
 41. \$2,422.50 bond and interest, \$422.53 transfer.
 42. Includes \$11,715.64 street improvement, \$1,774.73 transfer from utility fund.
 43. Donation.
 44. Includes \$16,745.68 from general fund.
 45. \$9,083.05 from municipal and \$3,768.90 from Citizens Utilities Co.
 46. Receipts not segregated.
 47. All expenditures assumed to be for maintenance.
 48. \$25,005.64 from general fund, \$2,348.52 sale of material.
 49. For buildings.
 50. Includes \$2,400.00 from sanitation, \$2,420.46 franchise tax.
 51. Includes \$5,396.30 from general fund.
 52. Receipts for other than street purposes.
 53. \$203.62 for trash hauling, \$150.59 franchise.
 54. Reported no work done.
 55. Includes \$3,466.68 transfer from other funds.
 56. Includes \$7,000.00 from water fund.
 57. Includes \$1,000.00 from contingent fund, \$210.00 sundry collections.
 58. \$716,337.91 improvement district funds, \$605,276.34 general fund, \$23,388.00 equipment fund, \$2,386.51 bridge bond fund.
 59. Insurance.
 60. Apportionments posted to general fund and budgeted out.
 61. Includes \$29,531.31 for special improvements, etc.
 62. Includes \$9,945.70 registered warrants, \$1,474.83 for paving, \$1,862.24 cigarette tax.
 63. Includes \$7,275.03 special assessments, \$4,653.21 accounts receivable.
 64. Includes \$5,029.35 transfer from other funds, \$1,639.43 assessments.
 65. Includes all personal services.
 66. Outlay for street lights and street signs.
 67. Includes \$1,200.00 from water fund.
 68. Includes \$211.00 water fund, \$13.72 franchise, \$4.62 fireman's pension.
 69. Includes \$5,096.21 water sales, \$529.39 licenses and franchise tax.
 70. Includes \$804.06 street cuts.
 71. Includes \$4,620.57 collections for oil paving district.
 72. \$4,930.00 transfer from water and light funds, \$466.00 miscellaneous fees.

1956 Truck, Tractor and Trailer Registration by Use Class

Trucks:	No.
"State Truck".....	100,731
"City Truck".....	1,674
"Farm Truck".....	49,332
"Metropolitan Truck".....	5,821
"Spl. Mobile Equipment".....	3,823
Total.....	161,381

Tractors:	No.
"State Truck Tractor".....	6,114
"City Truck Tractor".....	47
"Farm Truck Tractor".....	224
"Metropolitan Truck Tractor".....	284
Total.....	6,669

Trailers:	No.
"House".....	10,027
"Other".....	34,499
Total.....	44,526

DATA CONCERNING FEDERAL AID

APPORTIONMENTS TO STATES OF THE VARIOUS FUNDS CURRENTLY AVAILABLE FOR HIGHWAY
CONSTRUCTION ARE BASED ON THE FOLLOWING FACTORS:

Road System	Factors
Federal Aid—Interstate	50%—1/3 Area, 1/3 Population and 1/3 Post Road Mileage.
Federal Aid—Interstate	50%—Population.
Federal Aid—Primary	100%—1/3 Area, 1/3 Population and 1/3 Post Road Mileage.
Federal Aid—Secondary	100%—1/3 Area, 1/3 Rural Population and 1/3 Post Road Mileage.
Federal Aid—Urban	100%—Population of Cities over 5,000.

Total Amounts Apportioned and Colorado's Share of the Several Funds

Road System	Fiscal Year—1957 (July, 1956—June, 1957)		Fiscal Year—1958 (July, 1957—June, 1958)	
	U. S. Total	Colorado's Share	U. S. Total	Colorado's Share
Federal Aid—Interstate (3 Factors)	\$ 586,187,500	\$11,119,655	\$ 850,000,000	\$16,194,203
Federal Aid—Interstate (Population)	586,187,500	4,856,806	850,000,000	7,042,603
Federal Aid—Primary	366,525,000	6,713,614	382,500,000	6,962,848
Federal Aid—Secondary	244,350,000	4,484,240	255,000,000	4,650,118
Federal Aid—Urban	203,625,000	1,702,670	212,500,000	1,776,420
Totals	\$1,986,875,000	\$28,876,985	\$2,550,000,000	\$36,626,192

COMPARISON OF FACTORS CONCERNING FEDERAL AID APPORTIONMENTS TO THE ELEVEN WESTERN STATES

State	Area Sq. Mile	Total Population 1950	Post Road Mileage	Combined % of U. S. Total	Urban Population	% of U. S. Total
